Superior Products.

Limitless possibilities!

Luxury Vinyl.

Our Specialty

LVP (Luxury Vinyl Plank) & LVT (Luxury Vinyl Tile) technology is reshaping the flooring industry! We specialize in Luxury Vinyl flooring because we're firm believers in this floor with its adaptability to multiple environmental conditions, its incredible durability, and the creative latitude it makes possible in interior design of the home.

Unrivaled options and opportunity. The style options are stunning and broad! It often takes diligent study to discover that this product is vinyl because it closely mimics the realistic wood, stone, and tile look.

Great benefits! Outstanding warranties, pet-proof flooring, and extreme durability options are some of the fantastic features this product offers.

Hardwood.

Are you looking for quality, traditional hardwood options? Step this way! Hardwood flooring will essentially never wear out. It can be sanded and refinished dozens of times.

Engineered Wooden Flooring.

If you love the natural wood look, take a serious look at durable and versatile engineered flooring. Engineered wood flooring is built with an engineered plywood base and topped with a thick, durable veneer of premium hardwood on top.

Tile.

Breathtaking baths, kitchens, and tiled floors start here! Tile comes in every imaginable size, color, texture, and style. Whether you're into modern minimalist options or a Roman Grecian look... or how about retro?

Carpet.

Flooring Accents. Cozy spaces. Distinguished carpet luxury. For the room where you or the kids will be spending a lot of time on the floor, there's nothing like a luxurious mat of carpeted comfort to warm up a room.

Standout Detail.

Superior flooring products are just the beginning of the Eloquin revolution. We specialize in crafting custom designs and patterns to really make your floor stand out. Dream on!

- 1 Break out of the status quo and add a personal touch to your LVP floor with design components like decorative borders, grout effects, medallions, and added inlaid patterns.
- 2 Design strips can be installed between planks and tiles or used to create a slim border or inlay. Add visual interest to the design of your floor by adding a grouted look.
- 3 Incorporate a decorative border to add visual interest and style to your floor. Borders typically feature a background color to match your main floor and a contrasting color within the border.
- 4 Make a statement—add a floor medallion or inlaid pattern to any room!
- 5 Indulge in revolutionary floor patterns. If you can dream it, we can do it. Work with our designers to create perfect custom floor accents for your home!

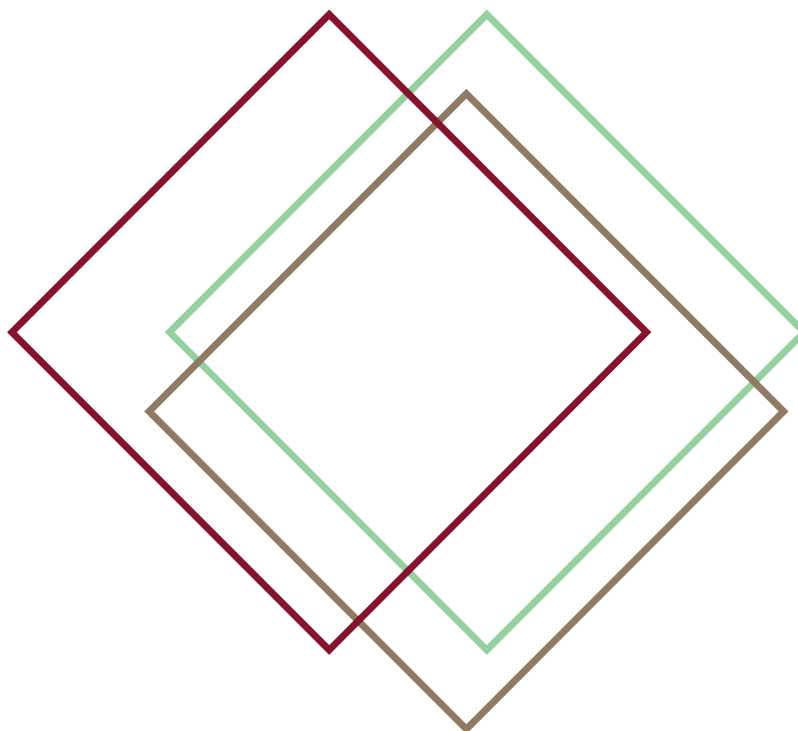

Extraordinary Installation.

Picking out the perfect, high-end flooring is a great start! But careless installation could mar your perfect floor and shatter your dream.

Relax! Eloquin is passionate about high-quality flooring installation. We believe that the way a floor is installed is just as important as the material you've chosen. Our experienced installers skillfully install whatever floor you choose.

Our techs arrive when they say they will. They treat your property like it's their own. They stay until the job is pristine. They leave as your friends.

You'll be impressed.
