Spoke w/ APD Officer Lifer regarding Stray 1/25 to inquire what we could provide them with to assist with this case. Lifer requested the x-rays and medical record be emailed to him. He said they would not be pursuing an autopsy as previously mentioned and that we should release the body to the crematory. TN

Through direction of the cat house, Linda brought in deceased stray cat that had been frequenting her house for some time. She suspects it has been shot due to mark on head and request that a doctor look at it to determine if it had. She intends to file a police report so we will hold remains until directed it is okay to send for communal cremation, which Linda has agreed to pay for. TN

Owner/caretaker brought in dead "stray", is stiff/rigor mortis has been taking care of him/around her house, thinks someone is shooting cats/similar wounds on others?

Owner ok'd xrays-

Wound on top of head (small superficial in appearance, crusted blood) and on right side- mid lateral abdomen, dried blood in hair. Wearing a seresto collar, does have some flea feces in hair coat.

Xray shows poss. bullet in abdomen- metal foreign body.

Intact male with no other lesions.

Rec. owner contact local police enforcement, we can share xrays, exam findings.
