**Loudonville-Perrysville Schools Bond Issue Not Approved**

**Loudonville, OH – May 6, 2025** – The Loudonville-Perrysville Exempted Village School District (LPEVS) community did not approve the proposed bond issue on the May 6, 2025, ballot. The bond would have funded the district’s Master Facilities Plan, which included building a new PreK-12 facility, targeted demolitions, and improvements to existing structures.

The measure did not pass despite revisions to the original proposal from November 2024, which reduced the local share by \$12.5 million through cost savings and increased district contributions.

Superintendent Jennifer Allerdig acknowledged the outcome and emphasized the district’s continued commitment to students and community engagement: “We respect the voice of our community. Our focus remains on providing the best educational environment possible and we will continue to collaborate with our staff, families, and community to find a path forward.”

The revised plan had preserved the PreK-12 concept while reducing project costs by removing or scaling back items such as the metal roof, rubberized playground, and administrative renovations. State funding of \$15.5 million would have covered 29% of the total cost of \$69.2 million, while the district planned to contribute \$12.5 million from local revenue sources and construction funds.

“As we move forward, we will continue to explore options to address our aging buildings and infrastructure while seeking solutions that reflect both our students’ needs and the priorities of our community,” said Superintendent Allerdig.

For more information about the district’s facilities and ongoing plans, visit the Loudonville-Perrysville Schools website at [www.lpschools.k12.oh.us](http://www.lpschools.k12.oh.us).
